This map presents cycling routes from Kingstanding, Handsworth, Erdington, Ward End, Aston and Perry Barr to Centrala gallery in Digbeth.

It’s a part of Centrala Cycles project, promoting sustainable mobility in the city of Birmingham. Cycling is a fun, fast and healthy way of commuting in Birmingham, and all presented routes are a great alternative to exploring the city and finding your way to Digbeth, where Centrala is located.

This project is implemented in collaboration with the Seeds of Sustainability (SOS) project by the European Network of Cultural Centres. This project invites cultural centres to take swift action on climate change and shares inspiring projects and initiatives.
